

Djordje Banovčanin: 34 (Djordje and I splitted all the work equally about the figma)

Rastko Petrovič: 33 (He did some of the work with the videos and the presentation)

Vuk Mičić: 33 (Doesn't care about the work too much but at least he is trying to do something)

For the figma part (we know that isn't perfect but we (Djordje and I) cannot do all the work alone)

The assistant already said that he won't share our feedback for the other three student, but I still want to mention that I don't want this to be shared with any of them.
